FROM THE HOUSE OF
PVL **WUUDPLY®**

Canboard®

Why is Canboard the smart choice?

Canboard is a durable, strong, water resistance and cost-effective alternative to all engineered wood products and panel-based products in the market like PVC, Plywood and MDF.

Wide Range of Applications

Perfect for Exterior Paneling, Furniture & Modular Kitchens, Partitions & Interior Paneling, Commercial & Residential Spaces

What truly sets it apart?

Made from 100% natural wood chips, and engineered for high density, Canboard has superior screw-holding capacity, ultra high water resistance, borer resistance and fire retardance.

Density	750 Kg/m³ > Ensures stability and long-lasting performanceWithin IS 3087 standards (500 – 900)
Water Absorption	2 hours: 7.83% (below 10% standard) 24 hours: 18.02% (below 20% standard)
Swelling Control	Length: 0.19% Width: 0.32% Thickness: 5.97% (All well within limits)
Formaldehyde Content/ Emission	Certified E1 Emissions (ultra-low formaldehyde) a safe choice for homes, schools, and healthcare environments.
Modulus of Rupture (MOR)	Average: 24.6 N/mm² (Above required 15 N/mm²)
Modulus of Elasticity (MOE)	Average: 3324.5 N/mm² (Higher than 2500 minimum)
Tensile Strength	Perpendicular to surface: 0.68 N/mm² (above 0.45 standard)
Screw Holding	Edge -1300 N, Face - 2300N
Boiling Test	8 hours, ISI grade FPT 1 - 3087

Two Great Choices in Prelaminates

- EUROPA
- Laminated with High Quality Made-in-Europe Papers
 - International design styles and finishes

- INDUS
- Laminated with High Quality Premium Papers
 - A wide variety of designs in ethnic and modern styles

Size Available: 8x4 ft, **Thickness:** 9 mm, 11 mm, 15 mm, 17 mm, 18 mm, 25 mm

 Fire Retardant	 Water Resistant	 Superior Strength
 Borer Resistant	 Eco Friendly	 Smooth Finish
